

# FINANCIAL TEAR SHEET

## Corporate Profile

Rayonier Advanced Materials is the leading global supplier of high purity cellulose specialties products, a natural polymer for the chemical industry. Working closely with its customers, the company engineers natural polymeric chemical chains to create dozens of customized high purity performance fibers at its plants in the US, Canada and France. Rayonier Advanced Materials' intellectual property and manufacturing processes have been developed over 90 years, resulting in unique properties and very high quality and consistency. The company's facilities can produce over 1 million metric tons of high purity cellulose products for use in a wide range of industrial and consumer products such as filters, cosmetics, textiles and pharmaceuticals. Additionally, the company produces lumber for use in the building and construction as well as pulp and paper products used in packaging, print and writing materials.
